89% of SMBs hire local partners to implement and support SaaS product for them

Local merchants rarely maintain in-house marketing or tech teams. Instead, **they hire implementation partners** (paying on a time&materials basis initially, then a monthly fee) — o set up and manage loyalty platforms such as Boomerang SaaS.

Based on a CNBC/Momentive survey of 2 300 U.S. SMB owners, Q4 2025.

Boomerangme helped grow our business fast!
Boomerangme took our business to the next level by allowing us to launch a loyalty program for our customers without the use of paper stamp cards that always get thrown away. Issuing our customers digital loyalty cards looks more professional and saves tons of money on printing cost. We have customers who use our services regularly thanks to Boomerangme

Solid App for Creating Digital Loyalty Cards
I recently started using Boomerangme for my business and it's been an absolute life-saver. The app is well designed, user-friendly, and extremely efficient in creating digital loyalty cards. I've already seen an increase in customer retention since using Boomerangme. Highly recommend this app to any business looking to increase their loyalty program!

A great solution and support is quick.
A great solution and support is quick. I'm very happy with the system and can only recommend that you try it out.
It's one of the best tools available for making a digital loyalty program.

Boomerangme is quite lovable!
I hesitated before trying but I am very happy that I did try Boomerangme, as it has functions that I would not see in the apps I tried before.

With Boomerangme, I can create full loyalty programs for my clients, with 6 types of cards: discount coupon, subscription, cashback, stamp, certificate, and interestingly loyalty stamp. The creation process is visually shown, I was also given various options for the design (logo, icon, background), and finally got a QR code and link to send to client.

Both UI and UX of Boomerangme is very polished and well designed - and I love products that have that maturity.

All in all, I am having very satisfactory experience with Boomerangme - it is becoming a favorite platform that I can visit daily, with love.

Unique software - I still can't get over it
As I am a fan of marketing and all kinds of gamification, I was delighted with this software and its possibilities.
This is not a toy, but a serious loyalty system with powerful possibilities. We have various types of loyalty cards, discount cards, membership cards, certificates, etc. and all this with perfect integration with Apple and Google Wallet. Push notifications based on geolocation or on a schedule - whatever you want...
I highly recommend. What I have mentioned is only part of the possibilities...

This software is gold for brick and mortar businesses
This software is gold for anyone who has or works with brick and mortar businesses. This could be restaurants, clothing stores, salons, anything!

It's a well thought approach to loyalty programs, which are usually clunky, and require a lot more moving pieces. On top of that, they are responsive and seem to be dedicated to making this a great tool for businesses that sell to their customers directly. And the experience is one that's easy and enjoyable for the customer too, which is a win-win!

Great Digital Loyalty App
Great Digital Loyalty App

These days, retaining customers is getting costly due to various reasons. Recurring help business grow and Loyalty program is very much required.

This is a great digital loyalty program! This helps to create personalized promotions and offers for customers to keep them coming back. The best thing is it is easy to set-up.

This is a fantastic product, especially for businesses that rely on repeat customers.
Think of these opportunities to offer your services: Salons, retails stores, hotels, cafes, restaurants etc.

Great for Customer Retention and LTV Optimization.

A Great Digital Loyalty Card App
I've used a couple of Digital Loyalty Card Apps in the past, but Boomerangme is definitely a notch above those and for a lower price.

The interface is clean and easy to navigate. When you log in for the first time you will notice this is a quality app.

But best of all is that they listen to their customers and make improvements based on what people suggest. the customer support is responsive.

These are qualities you will see from industry leaders.

If you haven't picked up Boomerangme yet, don't waste more time and jump in soon! You will be glad you did!

Great tool and 5 Star support
I am a serial purchaser of tools that look to add value to my clients. I help hospitality outlets and Boomerangme fits this space perfectly. I am impressed with how quickly and easily the process is to setup your new service.
Likewise I am impressed with the customer service. I have used their chat, their zoom call and email and all 3 have been a great experience. I can honestly recommend this product if you are looking to expand your offering to existing clients or you want to start a new service in your neighbourhood.
There are just so so many use cases for loyalty cards it is mind boggling.
Cheers, Paul Thommo

More BOOM for your Buck!
Boomerangme is a digital loyalty platform that enables businesses of all sizes to enhance their client's experiences, increase footfall and nurture brand ambassadors. I found the product to be easy to use with a user interface that is seamless and understood. Boomerangme has a library rich in video tutorials and their biggest asset are their staff. The staff have always been at hand to guide and assist and their dedication is commendable. Another HUGE PLUS are the feature rich enhancements that are being included .
